Foreword

This *Quarterly Financial Results Report* (QFRR) provides financial results for the Western Australian public sector for the nine months to 31 March 2011.

Care should be exercised in extrapolating the likely outcome for the 2010-11 year based on the quarterly results to date, particularly in light of the seasonal and other timing factors that impact the State's finances. The timing of grant revenue (from the Commonwealth) and grant payments can also be volatile, making comparisons between quarterly reporting periods difficult. The impact of Commonwealth stimulus spending, where it is on-passed through the State (including significant timing differences and the magnitude of stimulus programs relative to 2009-10), also distorts both revenue and spending.

The focus of the State budget is the net operating balance for the general government sector. The presentation in this report is consistent with the original 2010-11 State Budget (released 20 May 2010), and with the estimated outturn published in the 2011-12 Budget Papers (released on 19 May 2011).

The financial statements in this report have been prepared in accordance with applicable Australian Accounting Standards including AASB 134: *Interim Financial Reporting* and AASB 1049: *Whole of Government and General Government Sector Financial Reporting*.

This report also includes Appendix 3: *Public Ledger* which summarises information on the Consolidated Account, Treasurer's Special Purpose Accounts and the Treasurer's Advance.

Information presented in this QFRR is not audited.

Overview

Summary

The Western Australian public sector recorded strong financial outcomes across all sub-sectors during the nine months to 31 March 2011. These results are consistent with the revised full-year estimates for 2010-11 published in the 2011-12 Budget (on 19 May 2011).

The general government sector recorded an operating surplus of \$1,146 million for the nine months to 31 March 2011. This compares with a \$15 million surplus reported for the same period in 2009-10 and includes:

- higher revenue, up \$2,223 million (or 14.3%) in the first nine months of the year, mainly driven by higher iron ore royalties and an increase in taxation revenue (with a one-off receipt in December 2010 of \$350 million from BHP Billiton and Rio Tinto as a result of changes to State Agreement Acts, and higher payroll tax receipts, partially offset by the effect of a weaker property market on transfer duty collections); and
- higher expenses, up \$1,092 million (or 7.0%), mainly due to higher salaries, current transfer costs (which included a one-off payroll tax rebate paid in the 2010-11), and services and contracts costs.

The total public sector recorded a \$1,568 million operating surplus in the first nine months of 2010-11. This included the general government sector outcome above and surplus outcomes in the public corporations sectors.

The net worth of the total public sector increased by \$4.1 billion over the nine months to 31 March 2011, to stand at \$111.9 billion.

Total public sector net debt was \$11.0 billion at 31 March 2011, \$1.1 billion higher than the \$9.9 billion recorded at 30 June 2010.

General Government Sector

The general government sector recorded an operating surplus of \$1,146 million for the nine months to 31 March 2011. This is \$1,131 million higher than the \$15 million surplus reported for the same period in 2009-10.

This outcome was largely due to stronger revenue performance, reflecting higher iron ore royalty income and taxation collections.

These outcomes are consistent with the \$784 million expected outturn reflected in the 2011-12 Budget Papers, released on 19 May 2011. In this regard, revenue and expenses for the first nine months of 2010-11 were 75% and 72% of the full-year projection respectively. Expenses are expected to accelerate in the June quarter.

SUMMARY OF GENERAL GOVERNMENT FINANCES Western Australia

Table 1

	2010-11			2009-10		Actual ^(b)

Cash surplus/-deficit	-249	-370	-1,462	572	-895	-867

(a) Consistent with the revised outturn published in the 2011-12 Budget, released 19 May 2011.

(b) Consistent with final audited data contained in the 2009-10 *Annual Report on State Finances*, released 28 September 2010.

Revenue

Revenue for the nine months to 31 March 2011 totalled \$17,787 million, up \$2,223 million (or 14.3%) on the same period in 2009-10. This primarily reflects:

- higher royalty income (up \$1,521 million), mainly from higher iron ore production volumes and prices, an increase in the royalty rate for iron ore 'fines' in State Agreement Acts that applied from 1 July 2010, and a \$55 million one-off back-payment relating to the Robe River Mesa J Mine, partially offset by the effect of a stronger Australian dollar;
- higher taxation revenue (up \$299 million), mainly due to the combined effect of :
 - a one-off contribution from Rio Tinto and BHP Billiton (\$350 million) in response to changes to State Agreement Acts¹, received in December 2010;

¹ The Government announced in December 2010 that this contribution, together with the Mesa J royalty back-payment noted above and \$100 million in higher than expected royalty collections at the end of 2009-10, will be used to fund the construction of the New Children's Hospital, with building work to commence in 2012.

- higher payroll tax receipts (up \$214 million), resulting from stronger labour market conditions; and
- lower transfer duty collections (down \$342 million), due to soft conditions in Western Australia's established housing market;
- higher sale of goods and services (up \$128 million), mainly due to higher overseas student fee collection as a result of increased enrolment numbers, and higher cost recovery and service fees by the health sector;
- higher interest income (up \$100 million), due to larger holdings of interest earning assets and higher interest rates; and
- higher dividends (up \$91 million), due to the timing of final 2009-10 dividend outcomes for public corporations.

Expenses

Expenses for the nine months to 31 March 2011 totalled \$16,642 million, up \$1,092 million (or 7.0%) on the same period in 2009-10. This primarily reflects:

- higher salaries costs (up \$377 million, or 6.2%), due mainly to higher pay rates and an increase in staff numbers, mainly in the health, education and training, and law and order sectors (accounting for around 74.1% of the total increase);
- higher current transfers (up \$329 million), due largely to the net effect of:
 - one-off payroll tax rebates of \$99 million paid to eligible employers, an initiative included in the 2009-10 State Budget;
 - higher on-passed grant payments to external health providers (up \$64 million), particularly for aged care services, patient transport services, Home and Community Care programs and mental health services;
 - higher payments under the WA Redress program and the payment of the Cost of Living Rebate (up \$62 million);
 - Native Title grants under Yawaru Agreements (\$45 million);
 - higher payments for the *Royalties for Regions* fuel card program (up \$39 million), reflecting the number of card renewals and expanded regional coverage;
 - higher funding for disability service providers (up \$34 million), resulting from the National Disabilities Agreement and State growth funding for accommodation and preventative services that were included in the 2010-11 State Budget; and
 - lower on-passed education and training sector grants (down \$30 million), mainly due to a one-off Commonwealth grant on-passed to the Catholic education sector, received in 2009-10; and
- higher services and contracts expense (up \$209 million), primarily due to timing of payments for day-to-day running costs across the general government sector; and

- higher interest expenses (up \$93 million), primarily due to increasing levels of borrowings compared to the same period in 2009-10 (with new borrowings supporting the Government's infrastructure investment program).

Balance Sheet

The net worth of the general government sector increased by \$4.1 billion for the first nine months of 2010-11, to stand at \$111.9 billion at 31 March 2011. This increase mainly reflects the general government operating surplus outlined above, estimated revaluations of land holdings and operating surpluses in the public corporations sectors.

The general government sector continued to be net debt-free during the first nine months of 2010-11, with financial assets exceeding borrowings and other debt liabilities by \$16 million at 31 March 2011. However, as indicated in the recent budget projections, strong infrastructure spending is expected to push the sector into a net debt position by 30 June 2011.

Cash Flow

A cash deficit of \$370 million was recorded for the nine months ended 31 March 2011, \$525 million lower than the \$895 million cash deficit for the same period in 2009-10. This outcome mainly reflects the effect on cash from the operating surplus outlined above.

Infrastructure spending was broadly comparable to the same period in 2009-10.

Total Public Sector²

The total public sector recorded an operating surplus of \$1,568 million for the nine months to 31 March 2011. This is \$755 million higher than the surplus recorded in the same period in 2009-10, with operating surpluses recorded in the general government and public corporations sectors.

Table 2

SUMMARY OF TOTAL PUBLIC SECTOR FINANCES Western Australia

	2010-11			2009-10		Actual ^(b)

<i>Memorandum items</i>						
Net lending	-667	-1,220	-2,928	-498	-1,785	-4,232
Net debt		11,028	13,387		8,505	9,896
Cash surplus/-deficit	-597	-1,244	-3,763	241	-1,801	-2,816

(a) Consistent with the revised outturn published in the 2011-12 Budget, released 19 May 2011.

(b) Consistent with final audited data contained in the 2009-10 *Annual Report on State Finances*, released 28 September 2010.

Operating Statement

The total public sector operating surplus for the first nine months of 2010-11 includes the combined impact of:

- the \$1,146 million operating surplus for the general government sector (discussed in the previous section);
- a public non-financial corporations sector operating surplus of \$375 million, which was \$180 million lower than the surplus recorded for the same period in 2009-10, mainly due to lower subsidies for the Housing Authority (in anticipation of dividend funding to be received from Keystart later in 2010-11), and lower National Partnership housing revenue from the Commonwealth; and
- an operating surplus of \$247 million for the public financial corporations sector, which is \$104 million lower than the surplus recorded in the same period last year. The decrease in the surplus is mainly due to lower net investment income for the Insurance Commission of Western Australia.

² The total public sector (also known as the whole-of-government) consolidates the general government sector (discussed in the previous section), the public non-financial corporations sector (which includes entities such as the electricity utilities, Water Corporation, ports and the Public Transport Authority), and the public financial corporations sector (including agencies such as the Western Australian Treasury Corporation and the Insurance Commission of Western Australia).

Balance Sheet

The value of the total public sector balance sheet is identical to that of the general government sector in terms of net worth. This is because the net worth of the public corporations is recognised as an investment asset of the general government sector.

Net debt of the total public sector increased by \$1.1 billion during the first nine months of 2010-11, to stand at \$11.0 billion at 31 March 2011. This reflects the effect of the State's substantial Asset Investment Program (which is forecast to be \$6.9 billion in 2010-11).

Cash Flow

A cash deficit of \$1,244 million was recorded for the nine months ended 31 March 2011. This compares with a \$1,801 million deficit for the same period in 2009-10. The lower deficit outcome reflects the net cash impact of the operating surplus outlined above and net cash outflows for infrastructure spending (i.e. spending less sales of second hand assets) of \$4.2 billion for the nine months ended 31 March 2011.

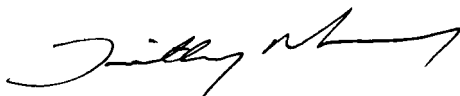

Interim Financial Statements

Statement of Responsibility

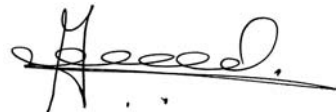

The following Interim Financial Statements and accompanying notes for the general government sector and whole-of-government have been prepared by the Department of Treasury and Finance from information provided by agencies.

In our opinion, the statements are a true and fair presentation of the operating statements and cash flows of these sectors for the nine months ended 31 March 2011 and of the balance sheets of these reporting entities at 31 March 2011. The statements have been prepared in accordance with applicable Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board and where there is no conflict with these standards, they are also consistent with the Australian Bureau of Statistics' *Government Finance Statistics Concepts, Sources and Methods 2005*.

Differences between accounting and economic aggregates are detailed in the notes as Convergence Differences, consistent with the requirements of AASB 1049: *Whole of Government and General Government Sector Financial Reporting*.

(b) Consistent with final audited data contained in the 2009-10 Annual Report on State Finances, released 28 September 2010.

Note: Columns may not add due to rounding. The accompanying notes form part of these statements.

Notes to the Financial Statements

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(a) *General Statement*

The financial statements constitute general purpose financial statements for the whole-of-government and the general government sectors. The whole-of-government sector is also known as the total public sector.

The financial statements are a requirement of the *Government Financial Responsibility Act 2000*.

(b) *The reporting entity*

The reporting entity is the Government of Western Australia (the total public sector) and includes entities under its control.

The total public sector includes the general government sector and the public corporations sector (which seek to recover the majority of costs of their operations through user charges and other revenue sources).

The general government sector consists of those agencies and Crown entities that provide services that are predominantly funded from central revenue.

(c) *Basis of Preparation*

The financial statements for the nine months ended 31 March 2011 have been prepared in accordance with Australian Accounting Standards, in particular AASB 134: *Interim Financial Reporting*, and AASB 1049: *Whole of Government and General Government Sector Financial Reporting* and other authoritative pronouncements of the AASB.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the audited Consolidated Financial Statements for the year ended 30 June 2010, presented in Appendix 1 of the *2009-10 Annual Report on State Finances (ARSF)* released on 28 September 2010. The accounting policies adopted in this publication are consistent with those outlined in the 2009-10 ARSF. The specific accounting policies of the Government of Western Australia are described in Note 3: *Summary of Significant Accounting Policies* in Appendix 1 of the 2009-10 ARSF.

The Interim Financial Statements are presented in Australian dollars and all amounts are rounded to the nearest million dollars (\$m). As a consequence, columns may not add due to rounding.

(d) *Unaudited data*

The Interim Financial Statements are not subject to audit.

NOTE 2: OPERATING REVENUE

A detailed dissection of general government and total public sector operating revenue is included in Appendix 2: *Operating Revenue*.

NOTE 3: TRANSFER EXPENSES

Transfer expenses are defined as the provision of something of value for no specific return or consideration and include grants, subsidies, donations, transfers of assets free of charge, etc.

The following tables provide detail of current and capital transfer expenses of the general government sector and total public sector.

(a) Includes grants, subsidies and other transfer expenses.

(b) Consistent with the estimated outturn published in the 2011-12 Budget, released 19 May 2011.

(c) Consistent with final audited data contained in the 2009-10 *Annual Report on State Finances*, released 28 September 2010.

NOTE 4: CONVERGENCE DIFFERENCES

Where possible, AASB 1049 harmonises GFS and accounting concepts into a single presentation. Where harmonisation cannot be achieved (e.g. the recognition of a doubtful debts provision is excluded from GFS net worth), a convergence difference arises.

The following tables detail convergence differences reflected in the March 2011 results.

NOTE 8: DETAILS OF AGENCIES CONSOLIDATED

The agencies included in these financial statements were detailed in Note 32, Composition of Sectors in the 2009-10 *Annual Report on State Finances*. Changes since that date are:

- with effect from 1 October 2010, the designation of South West Regional College of TAFE has been altered to South West Institute of Technology;
- with effect from 19 October 2010, the designation of C.Y. O'Connor College of TAFE been altered to C.Y. O'Connor Institute;
- with effect from 30 November 2010, the designation of the Office of Health Review was altered to Health and Disability Services Complaints Office;

- the functions of the Office of the Public Sector Standards Commissioner have been transferred to the Public Sector Commission with effect from 1 December 2010; and
- the Agriculture Protection Board was abolished with effect from 20 December 2010.

NOTE 9: CONTINGENT LIABILITIES

There have been no material changes in contingent liabilities since the release of the 2009-10 *Annual Report on State Finances*.

APPENDIX 2

Operating Revenue

The tables below detail operating revenue of the general government and total public sectors. They provide detailed revenue information consistent with the operating statements presented in Appendix 1: *Interim Financial Statements*.

The total public sector consolidates internal transfers between the general government sector and agencies in the public corporation sectors.

Accordingly, some total public sector revenue aggregates may be **smaller** than the general government equivalent. For example, the general government sector collects payroll tax from some public corporations. These collections are not shown in the total public sector taxation revenue data which is thus smaller than the general government taxation revenue aggregate.

APPENDIX 3

Public Ledger

The Public Ledger, established by section 7 of the *Financial Management Act 2006* (FMA), includes those transactions and operations that are conducted through the Public Bank Account and maintained by the Treasurer. The Public Ledger comprises the Consolidated Account, the Treasurer's Advance Account and the Treasurer's Special Purpose Accounts.

Table 3.1 shows that the aggregate balance of the Public Ledger at 31 March 2011 decreased by \$291 million compared with 31 March 2010. This mainly reflects the net impact of a \$1,161 million increase in the Consolidated Account deficit (mainly for non-cash accrual appropriation costs), partially offset by an \$864 million increase in the Treasurer's Special Purpose Accounts.

Table 3.1

PUBLIC LEDGER BALANCES AT 31 MARCH

	2011	2010
	\$m	\$m
THE PUBLIC LEDGER		
Consolidated Account ^(a)	-6,396	-5,235
Treasurer's Special Purpose Accounts	7,083	6,219
Treasurer's Advance Account – Net Advances	-7	-13
Total	680	971

(a) The balance of the Consolidated Account at 31 March 2011 includes non-cash appropriations of \$5,409 million (31 March 2010: \$4,614 million), representing the non-cash cost of agency services. These appropriations are credited to agency holding accounts that are included in the Treasurer's Special Purpose Accounts balance.

Consolidated Account

The *Constitution Act 1889* requires that all revenue of the Crown that is not permanently appropriated by legislation to another entity, shall be credited to the Consolidated Account, and that payments out of the Account must be appropriated by Parliament.

Accordingly, Consolidated Account revenue is not available for use by agencies that collect it, and such receipts must be paid directly to the credit of the Account. Expenditure is authorised by Parliament, with both the amount and the expressed purpose of the relevant appropriation clearly specified.

The Consolidated Account recorded an accumulated deficit of \$6,396 million at 31 March 2011. This included \$5,409 million in non-cash Holding Account balances for agencies, associated with accrual (non-cash) appropriations for depreciation and leave entitlements.

In cash terms, the Consolidated Account recorded a cash deficit of \$987 million at 31 March 2011, compared with an accumulated cash deficit of \$621 million for the period ended March 2010.

Cash balances vary significantly through the year, depending on the timing of receipts into, and payments from, the Account.

Treasurer's Special Purpose Accounts

The Treasurer's Special Purpose Accounts (TSPA) consists of:

- any account established by the Treasurer as a TSPA for the purposes determined by the Treasurer;
- suspense accounts established for the purposes of section 26 of the FMA;
- any account established to hold money transferred under section 39(5) of the FMA;
- the Public Bank Account Interest Earned Account established for the purpose of holding money credited to that account under section 38(9) of the FMA pending its allocation and payment as required or permitted under the FMA or another written law;
- any account established under written law and determined by the Treasurer to be a TSPA; and
- any account established to hold other money and determined by the Treasurer to be a TSPA.

The \$864 million increase in the TSPA mainly reflects higher Holding Account balances for accrual appropriations to agencies for depreciation and accrued leave entitlements (up \$795 million).

Table 3.3

Treasurer's Advance

The Treasurer's Advance allows for short-term repayable advances to agencies for working capital purposes (known as 'net recoverable advances') and the provision of supplementary appropriation funding for unforeseen and/or extraordinary events during the year (known as 'excesses and new items').

A limit of \$555.5 million is authorised under section 29 of the FMA for the year ended 30 June 2011, compared with a total of \$469.2 million authorised limit applying at the same time last year (the *Treasurer's Advance Authorization Act 2010* authorised an increase in the 2009-10 limit in May 2010).

Of the \$555.5 million authorised limit, \$7.4 million was held in the form of net recoverable advances (see Table 3.4) and \$12.3 million against increases in recurrent and capital appropriations (see Table 3.5) applying at 31 March 2011.

(a) Amount less than \$50,000.

Transfers, Excesses and New Items

Table 3.5 outlines transfers of appropriations between agencies, authorised under section 25 of the FMA (and which have no impact on the Treasurer's Advance), and excesses and/or new items approved by the Treasurer (under the authority of section 27 of the FMA).

Transfers of appropriations between agencies were for the following purposes:

- \$0.1 million from the Legislative Council to the Parliamentary Services Department for the transfer of responsibility and the associated funding for the Electronic Document Records Management System Project Manager function;
- \$0.1 million from the Department of the Premier and Cabinet to the Department of the Attorney General for the transfer of the non-government legislative drafting services function;
- \$0.3 million from the Department of Treasury and Finance to the Department of Education for the transfer of the i-procurement function;
- \$0.1 million from the Department for Child Protection to the Department of the Attorney General for the Burial of Unclaimed Bodies Under the Bereavement Assistance Program;
- \$2.6 million from the Office of the Public Sector Standards Commissioner to the Public Sector Commission for the transfer of all functions and operations of the office;
- \$4.9 million from the Public Transport Authority to the Department of Transport for the transfer of the multi-modal public transport planning function;
- \$2.5 million from the Department of Transport to the Department of Planning for the transfer of corporate services; and
- \$0.4 million from the Department of Planning to the Department of Transport for office refurbishment costs.

(a) Authorised under section 25 of the FMA.

Approved excesses were for the following items:

Treasury and Finance

Item 23: **Payroll Tax Rebate** (\$16.0 million) for additional eligible payroll tax rebates during 2010-11.

Item 34: **All Other Grants, Subsidies and Transfer Payments** (\$5.0 million) for the Consolidated Account share of funding for the Toodyay Bushfire Financial Assistance Package (the balance of the \$10 million fund is provided by Western Power).

Item 123: **Forest Products Commission** (\$3.0 million) to facilitate restructuring of the Forest Products Commission.

Culture and the Arts

Item 78: **Art Gallery of Western Australia** (0.8 million) for additional short-term funding to address an operating deficit arising as a result of non-discretionary cost pressures such as utility charges, insurance premiums and maintenance costs for the State's public, cultural, heritage and scientific buildings, archives and collections.

Item 80: **Perth Theatre Trust** (\$1.9 million) to meet the operational, management and depreciation costs associated with operation of the Albany Entertainment Centre.

Item 81: **Western Australian Museum** (\$2.7 million) for additional short-term funding to address an operating deficit arising as a result of non-discretionary cost pressures such as utility charges, insurance premiums and maintenance costs for the State's public, cultural, heritage and scientific buildings, archives and collections.

Rural Business Development Corporation

Item 105: **Net amount appropriated to deliver services** (\$4.5 million) for the provision of assistance to farmers affected by the 2010 dry season.

National Trust of Australia (WA)

Item 158: **Capital Appropriation** (\$1.0 million) for restorative works and a new toilet block at the Old Perth Boys School site.
